# PART I--FINANCIAL INFORMATION

Item 1. Financial Statements.

The unaudited consolidated financial statements are filed as part of this Form 17-Q.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

# Results of Operations

Nine Months Ended September 30, 2006 vs. September 30, 2005

JG Summiturecorded a net income of P1.54 billion for the 3<sup>rd</sup> quarter of the calendar year, a 107% increase from last year's P0.74 billion, brought about by the foreign exchange gains recognized by some of its subsidiaries on the back of strengthening peso. Its nine-months net income, stood at P5.59 billion up by 128.4%, compared to P2.44 billion in the same period last year, due largely to gains from the sale of some of its shares in Universal Robina Corporation, (URC) in February 2006. The sale brought about the decrease in the Company's equity interest in URC from 86% last year to 59% this year. Recurring net income, excluding such gain, grew 4.9% from P2.27 billion to P2.38 billion on a year-on-year basis.

Consolidated revenues were up by 23.6%, from P48.66 billion last year to P50.15 billion for the same period this year. The substantial growth was driven by the continued improvement in sales and revenues; of almost all our core businesses, except for the telecommunications business, which registered a 7% decline in their net service revenue during the nine-month period this year. Our interest income from various investment portfolios boosted our company's revenues, reflecting a 28.6% increase from P2.97 billion last year to P3.82 billion this year. Other income registered a significant 326.4% increase from P1.40 billion last year to P5.97 billion this year mainly due to the recognition of gain on sale of URC shares amounting to P3.21 billion and foreign exchange gains where the Group has recognized a net gain of P2.55 billion.

Gross profit for the nine months amounted to P16.97 billion, higher by 10.6% from last year's P15.35 billion. Increase in cost of sales and services kept pace with higher revenues of the food, real estate and petrochemical businesses. Operating expenses went up 12.6% from P12:71 billion of last year to P14.32:billion this year. Again, costs of operating the mobile phone business and air transportation and the expansion of our foods business into regional operations contributed to such increase.

Financing costs and other charges incurred for the nine months was up by 8.3%, from \$\mathbb{P}\$5.35 billion last year to \$\mathbb{P}\$5.80 billion this year. The increase in level of the Company's financial debt, brought about by additional financing for new aircrafts, contributed to higher finance cost this year.

EBITDA (earnings before interest, taxes, depreciation and amortization) increased from P13.76 billion last year to P19.06 billion this year. Excluding the non-recurring items, EBITDA increased by 16.7% from last year's P13.58 billion to P15.86 billion this year.

## FOODS

Universal Robina Corporation (URC) posted consolidated net sales and services of \$26.04 billion for the nine months ended June 30, 2006, a 15.4% growth from \$22.57 billion in the same period last year. The increase in net sales and services was driven by continuous product innovation, brand advertising and distribution system improvements. Revenue growth can be attributed to the following: (1) \$\mathbb{P}2.48\$ billion or a 15.3% increase in net sales of URC's branded consumer foods segment (excluding packaging) from \$\mathbb{P}16.29\$ billion in 2005 to \$\mathbb{P}18.77\$ billion in 2006, which can be attributed to the 18.0% increase in sales of international operations. The net sales of the packaging division for the past nine months of fiscal 2006 amounted to \$\mathbb{P}950\$ million, 6.6% lower than \$\mathbb{P}1.02\$ billion reported in the same period last year as a result of decrease in sales volume. (2) \$\mathbb{P}789\$ million or 28.5% revenue growth of agro-industrial segment from \$\mathbb{P}2.77\$ billion last year to \$\mathbb{P}3.56\$ billion brought about by 46.0% increase in net sales of URC's animal feeds business as a result of higher sales volume plus a 17:2% growth in revenue of the farm group. (3) \$\mathbb{P}271\$ million or 10.9% increase in net sales of URC's commodity foods segment primarily due to increase in net sales of flour and sugar as a result of growth in sales volume of flour plus higher selling price of sugar.

URC's cost of sales and services increased by P2.58 billion or 15.5%, to P19.21 billion for the first nine months of fiscal 2006 from P16.63 billion in 2005 due to higher sales volume and generally higher costs of many major raw materials such as coffee, corn and potatoes and packaging materials. URC's gross profit improved by 15.1% from P5.93 billion last year to P6.83 billion this year. URC maintained its gross margin at 26%. Income from operations for the third quarter-to-date of fiscal 2006 is up by 11.7% or P231 million from the same period of fiscal 2005, which was constricted by higher operating expenses for the period. Operating expenses were higher by 16.8% from P3.96 billion to P4.63 billion as a result of the continuing rise in freight costs, expanding regional operations and sustained marketing activities both domestically and internationally. Net income decreased by 13.0% or P232 million from P1.78 billion for the third quarter to-date of fiscal 2005 to P1.55 billion this year. This is the effect of higher net other charges for the period. If not for the P657 million unrealized losses from decline in market value of temporary investments and marketable securities, net income could have increased by 23.8% as compared to the same period last year.

URC generated EBITDA (earnings before interest, taxes, depreciation and amortization and other non-cash items) of ₱5.20 billion for the nine months ended June 30, 2006, reflecting a 6.7% increase from ₱4.88 billion realized in the same period last year.

URC will continue to stamp its dominance in core categories by maintaining product innovation leadership and lacquiring strategic opportunities. It sets an aggressive target in the last quarter of the fiscal year to maintain its dominance in the Philippine market as well as in the ASEAN regional market.

URC and its majority-owned subsidiaries' key performance indicators are revenue, EBIT (income from operations), EBITDA (earnings before interest, taxes, depreciation and amortization and other non-cash items), net income and total assets.

## PROPERTY

Robinsons Land Corporation (RLC) recorded gross revenues of P1.49 billion for the third quarter of fiscal year 2006, bringing up three quarter revenues to P4.84 billion up by 28% from last year's P3.79 billion. The Company was able to achieve a 29% growth in Income from Operations, from last year's P1.34 billion to P1.74 billion this year. EBITDA amounting to P2.68 billion this year shows a 22% increase from last year's balance of P2.20 billion. Net income for the first three quarters of fiscal year 2006 stood at P1.23 billion, up by 20% from last year's P1.03 billion.

The largest revenue contributor remains to be the Commercial Centers Division, contributing 49% of the Company's gross revenues. Revenues from Commercial Centers amounted to P2.36 billion as against last year's P2.29 billion. The Company flagship mall, Robinsons Place Manila continue to enjoy excellent rental income, while newer malls such as Robinsons Place Pioneer and Robinsons Place Angeles and the redeveloped Robinsons Place Novaliches are also contributing to the rental growth.

RLC's High Rise Buildings Division registered a 79% growth in revenues from P813.9 million last year to P1.45 billion this year. This is mainly due to the recognition of realized revenues from its projects particularly the One Gateway Place, a middle-cost residential condominium building in Pioneer Street, Mandaluyong and One Adriatico Place located along Adriatico Street, Malate Manila. Likewise, the division's office buildings including the newly opened Cybergate Center in the Pioneer Complex, are enjoying almost full occupancy. Rental income from these buildings amounted to P234.44 million compared to P164.15 million over the same period last year.

The Hotel Division registered gross revenues of \$\mathbb{P}657.86\$ million for the three quarters of \$\mathbb{F}Y\$ 2006 as against last year's \$\mathbb{P}354.64\$ million due to the excellent reception to the opening of Crowne Plaza Hotel. Holiday-Inn Galleria Manila (HIGM) remained steady while Cebu Midtown Hotel and Robinsons Apartelle in Mandaluyong registered revenue growth of 11% and 29%, respectively.

The Company's Housing and Land Development Division, through its two housing subsidiaries, Robinsons Homes, Inc. and Trion Homes Development Corp., reported revenues amounting to \$\textstyle=368.82\text{ million}; higher by \$\textstyle=39.1\text{ million or 12% over last year's \$\textstyle=329.71\text{ million due to higher project completion of ongoing projects.}

Real Estate cost increased by 15% from ₱1.47 billion last year to ₱1.70 billion this year mainly due to higher cost of realized sales of High Rise Division. Hotel costs and expenses increased due to the opening of Crowne Plaza Hotel. General and Administrative expenses increased by 19% mainly as a result of higher marketing and selling expenses on account of higher sales and revenues of High-Rise Division.

RLC's key performance indicators are Revenue growth, EBIT, EBITDA and Net Income all of which showed improvement during the first nine months of fiscal 2006.

# **TELECOMMUNICATIONS**

DIGITEL registered consolidated revenues of P7,815.7 million for the nine months ended September 30, 2006, an improvement from last year's revenues amounting to P6,673.1 million, as foreign exchange gain of P1,721.3 million reported during the third quarter more than covered up for the decline in service revenues both in the wireline and wireless businesses.

Service revenues in the wireline voice communications segment dropped to P3,479.2 million during the nine-month period ended September 30, 2006, a decrease of P387.4 million or 10% from last year's figure of P3,866.6 million. The decrease was mainly brought about by the decline in traffic volume and rates attributable to the growing preference of the market for cheaper routes and of foreign carriers" preference for alternative least cost routes. In addition, the appreciation of the peso

also contributed to the decline in international revenues. The wireless communications business also posted a decline in service revenues of P50.2 million or 2.3% to P2,154.0 million during the ninemonth period ended September 30, 2006, from P2,204.2 million during the same period last year, mainly due to lower SMS revenues. On the other hand, the wireline data communication services managed to sustain revenue levels at P281.1 million during the nine-months ended September 30, 2006, despite the market-driven reduction in rates due to increasing bandwidth subscriptions for internet and data communications.

The non-service revenues from the wireless communications segment dropped by P46.1 million or 54%, owing to a surge in sales of phone kits during the second quarter of 2005 brought about by the aggressive re-launching of Sun's Sureload product, posting a higher non-service revenue performance compared to the current period.

Consolidated costs and expenses of P8,140.5 million for the nine months ended September 30, 2006 posted a decrease of P301.6 million or 3.6% from P8,442.2 million for the same period in 2005, as efforts are driven towards promoting operational efficiency. Increase in general and administrative costs of P471.3 million or by 14.8% over the same period last year was offset by lower financing costs and other charges due to settlement of debt, cost of SIM packs, and provision for impairment losses on receivables.

As a result, DIGITEL registered consolidated loss before tax of P324.9 million for the nine months ended September 30, 2006 an improvement of P1,444.2 million or 81.6% against loss before income tax of P1,769.1 million for the same period in 2005, significantly brought about by the effect of foreign exchange fluctuations.

DIGITEL registered a consolidated EBITDA of P1,584.2 million for the nine months ended September 30, 2006, as against P2,108.0 million for the same period last year.

# **TEXTILES**

Litton Mills, Inc.'s reported revenue for the nine-month period ended June 30, 2006 amounted to P1.84 billion, higher by 7.6% over last year's P1.71 billion. However, gross profit is lower by 2% from P414.4 million last year to P405.7 million this year, which can be attributed to higher direct labor and fuel costs. The textile business yielded a net income of P18.1 million this year compared to a net loss of P10.6 million last year.

# **PETROCHEMICALS**

JG Summit Petrochemicals Corporation's (JGSPC) revenue increased by 39% during the period from last year's P3.13 billion to this year's P4.35 billion, mainly due to higher sales volume which increased by 40%. However, gross margin still went down by 14% from 8.6% last year to 7.4% this year. As of June 30, 2006, JGSPC recorded higher operating expenses and financing costs than last-year's. This was offset by recognition of foreign exchange gain amounting to P104.0 million this year compared to P17.7 million last year, thus net loss decreased from P401:3 million to P371.7 million this year.

# AIR TRANSPORTATION

Cebu Air, Inc. (Cebu Pacific) reported revenues of P6.64 billion for the nine-month period ended September 30, 2006, a 13.8% increase over last year's P5.83 billion. The competitive position of the airline continues to strengthen as Cebu Pacific cut a big slice of the market share in domestic routes with 44.4% for the month of September. Costs and operating expenses increased by 11.3%, from P5.91 billion last year to P6.58 billion this year brought about by higher depreciation expense related to acquisition of new airbus and higher aircraft lease. The Company incurred interest charges amounting to P307.50 million and recognized foreign exchange gain amounting to P546.4 million in

relation to its foreign-denominated finance lease obligation. As a result, net income during the period amounted to P293.6 million, a complete turn-around from last year's P77.3 million net loss.

# **EQUITY EARNINGS**

Equity earnings from associated companies and joint ventures were reported at \$\mathbb{P}743.3\$ million for the nine-month period ended September 30, 2006, lower by 11.7% from last year's equity earnings of \$\mathbb{P}842.0\$ million despite the increase in equity ownership in United Industrial Corp., Limited (UIC) from 26.1% last year to 30.995% this year. This is due to previous year's higher earnings of UIC arising from special gains on asset disposal.

# Financial Position

# September 30, 2006 vs. December 31, 2005

As of September 30, 2006, the Company's balance sheet remains solid, with consolidated assets of P217.65 billion from P201.23 billion as of December 31, 2005.

Cash and cash equivalents showed a significant increase from P5.46 billion as of December 31, 2005 to P10.42 billion as of September 30, 2006. The principal sources of cash were from operating and financing activities amounting to P13.49 billion and P3.29 billion, respectively. As of September 30, 2006, that cash used in investing activities amounted to P11.82 billion, which can be attributed to acquisition of property and equipment. Investment in bonds and equity securities, presented under financial assets at fair value through profit and loss, available for sale investments and held-to-maturity investments; decreased by 8.7% from P33.47 billion as of December 31, 2005 to P30.56 billion as of September 30, 2006 with the sale of certain bonds to settle some noncurrent obligations.

Other current assets grew by 5.4% from P4.09 billion as of December 31, 2005 to P4.31 billion as of September 30, 2006 due to increase in advances to suppliers and prepaid expenses.

Investments in associates and joint ventures increased by 5.1% from ₱17.11 billion as of December 31, 2005 to ₱18.0 billion as of September 30, 2006 due to additional investment in UIC.

Other noncurrent assets dropped by 35.2% from \$2.52 billion as of December 31, 2005 to \$3.58 billion as of September 30, 2006 due to reclassification of certain security deposits to property and equipment account.

Accounts payable and accrued expenses went up by 14.6% from P26.06 billion as of December 31, 2005 to P29.86 billion as of September 30, 2006 due to higher trade payables.

Short-term debt decreased by 39.8% from ₱19.09 billion as of December 31, 2005 to ₱11.49 billion as of September 30, 2006 due to settlement of loans during the period.

Other current liabilities increased by 35.8% to P6.05 billion as of September 30, 2006 from P4.45 billion as of December 31, 2005 due to higher unearned revenue from real estate and airline businesses.

Estimated land development costs, including current portion increased by 60.7% to ₱2.42 billion in 2006 from ₱1.5 billion in 2005 due to recognition of cost to complete sold units of high-rise projects.

Long-term debt, including current portion, is higher by 13.4% from P66.72 billion as of December 31, 2005 to P75.62 billion due to increase in ECA facility loan of Cebu Air in connection with their reflecting program. In addition to this, an offshore company issued USD 300 million bond in January 2006. This was offset by settlement of long-term debt from various subsidiaries.

Deferred income tax liabilities increased by 38.8% amounting to P3.13 billion as of September 30, 2006; which can be attributed to deferred tax effects of unrealized foreign exchange gain recognized during the period.

Other noncurrent liabilities dropped significantly by 79.7% from P7.17 billion as of December 31, 2005 to P1.46 billion as of September 30, 2006 as the Company settled its noncurrent obligations.

Total equity grew to P85.52 billion as of September 30, 2006 from P71.87 billion at the end of 2005. Stockholders' equity stood at P68.86 billion as of September 30, 2006. Book value per share improved from P9.43 per share as of December 31, 2005 to P10.13 per share as of September 30, 2006.

# **KEY PERFORMANCE INDICATORS**

The Company sets certain performance measures to gauge its operating performance periodically and to assess its overall state of corporate health. Listed below are the major performance measures, which the Company has identified as reliable performance indicators. Analyses are employed by comparisons and measurements on a consolidated basis based on the financial data as of September 30, 2006 and December 31, 2005 and for the nine months ended September 30, 2006 and 2005:

- Revenues amounted to P60.15 billion for the nine months ended September 30, 2006, up by 23.6% from last year's P48.66 billion.
- EBIT increased by 15.4% to P9.67 billion as against last year's P8.38 billion.
- EBITDA including non-recurring items increased 38.5% from P13.76 billion in 2005 to P19.06 billion in 2006. EBITDA excluding non-recurring items also increased by 16.7% from P13.58 billion in 2005 to P15.86 billion for the nine months ended September 30, 2006.
- As of September 30, 2006, current ratio stood at 1.42:1 compared to 1.24:1 as of December 31, 2005.
- Financial debt to equity ratio stood at 1.04:1 as of September 30, 2006 as against 1.22.1 as of December 31, 2005 while Net debt to equity ratio decreased to 0.58:1 from 0.70:1 as of December 31, 2005.

The manner by which the Company calculates the above key performance indicators for both yearend 2006 and 2005 is as follows:

- · Revenues;
- EBIT (earnings before interest and taxes) computed as Net income add or deduct Provision (benefit from) for income tax, Interest and financing charges and Nonrecurring items;
- EBITDA. (earnings before interest, laxes and depreciation and amortization charges) computed as Net income add or deduct Provision (benefit from) for income tax, Interest and financing charges, Nonrecurring items and Depreciation & amortization;
- · Current Ratio computed as Current assets divided by current liabilities; and
- Financial Debt to Equity ratio computed as total financial debt divided by total equity plus iminority interest. Net Debt to equity ratio computed as total financial debt less cash and temporary investments over total equity plus minority interest.

As of September 30, 2006, the Company is not aware of any events and uncertainties that would have a material impact on the Company's net sales, revenues, and income from operations and future operations.

The Company, in the normal course of business, makes various commitments and has certain contingent liabilities that are not reflected in the accompanying consolidated financial statements. The commitments and contingent liabilities include various guarantees, commitments to extend credit, standby letters of credit for the purchase of equipment, tax assessments and bank guarantees through its subsidiary bank. The Company does not anticipate any material losses as a result of these transactions.

# NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# Basis of Preparation

The accompanying consolidated financial statements have been prepared in compliance with accounting principles generally accepted in the Philippines (Philippine GAAP), as set forth in Philippine Financial Reporting Standards (PFRS). The consolidated financial statements are presented in Philippine Peso and have been prepared under the historical cost convention method, except for financial assets at fair value through profit and loss (FVPL), available for sale (AFS) investments and certain derivative financial instruments which are measured at fair value; and hog market stocks which are measured at fair value less cost to sell.

The preparation of financial statements in accordance with Philippine GAAP requires the Group to make estimates and assumptions that affect the reported amounts on income, expenses, assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Management believes that actual results will not be materially different from those estimates.

These interim financial statements followed the same accounting policies and methods of computation by which the most recent annual audited financial statements have been prepared. The Group adopted the following new or revised accounting standards in 2005:

- PFRS 1, First-time Adoption of PFRS
- PFRS.2, Share-Based Payment
- PFRS 3, Business Combination -
- PFRS 5; Noncurrent Assets Held for Sale and Discontinued Operations
- PAS 16, Property, Plant and Equipment
- PAS 19; Employment Benefits
- PAS 21, The Effects of Changes in Foreign Exchange Rates
- PAS 30, Disclosures in the Financial Statements of Banks and Similar Financial Institutions
- PAS 32, Financial Instruments: Disclosures and Presentation
- PAS 38, Intangible Assets
- PAS 39, Financial Instruments: Recognition and Measurement
- PAS 40, Investment Property
- PAS 41, Agriculture

The comparative figures in 2005 were restated to reflect the adjustments resulting from the adoption of the abovementioned accounting standards.

# Principles of Consolidation

The unaudited consolidated financial statements as of and for the nine months ended September 30, 2006 and 2005 represent the consolidation of the financial statements of JG Summit Holdings, Inc. (the Parent Company) and the following subsidiaries directly and indirectly owned by the Parent Company:

	Effective Percentage	of Ownership
Companies	2006	2005
		•
<u>Foods</u>		. •
